PROGRAM OVERVIEW

We understand the cost of fertility treatment can be overwhelming for many people and that sadly, the decision to pursue care often comes down to the bottom line, affordability. The Shared Help Program is designed to help make fertility testing and treatment more affordable, by offering discounts to patients who have no insurance coverage for procedures and services needed and limited personal resources to cover the out-of-pocket expenses.

It is our hope that through the Shared Help Program more patients will be able to receive the treatment they need to help them achieve their dream of parenthood.

PROGRAM DETAILS

Shared Help provides patients, whose income is $95,000 or less, with a discount off the cost of most fertility services provided by Shady Grove Fertility. The percentage discount is based on annual household income which is confirmed by two years of U.S. federal tax returns. Discounts do not apply when the fees are paid to an outside service and, therefore, not within our control. If you are interested in one of our Shared Risk Programs please ask for eligibility criteria.
